CONGRATULATIONS

You are choosing something special, because our high-quality fabrics offer you more than just shade. They create atmosphere, well-being and are an important design element in your living or working environment. Color is more than just décor. It is a targeted design tool and has a holistic effect. With fabrics from our collection – consisting of 380 different designs – you are choosing a European high-tech textile product in premium quality that will give you pleasure for many years to come. Indulge yourself and get inspired. In addition, you have the option of combining your fabric with a variety of different frame colors. Our specialist dealers will be happy to advise you.

Useful tools are also available on the Internet.

Here you can enlarge and examine all fabrics in a close-up viewer: www.stobag.com/collection. With the awning designer you can visually simulate your desired shading system: www.stobag.com/designer

We wish you plenty of inspiration.

The available color samples are not color-binding. Deviations in production technology are possible.

SYMBOLS

UV PROTECTION

- UV 90** The fabric filters more than 90 % of the UV rays
UV 95 The fabric filters more than 95 % of the UV rays
UV 100 The fabric filters 100 % of UV light

FABRIC RAPPORT

The fabric repeat describes the distance of the repeating pattern. Printed is not woven. Please compare your selection with an original sample at your local STOBAG dealer.

FABRICS

FABRIC FOR SHADING

FABRIC WITH ADDITIONAL PROTECTION AGAINST WATER, FIRE AND HEAT

SHADING

CLASSIC UNI	6
CLASSIC STRIPES	16
• Maximum UV resistance • Brilliant colors with great luminosity • Extremely water resistant • Especially dirt-repellent	
DESIGN	22
STOBAG DESIGN BRILLIANT 3D BRILLIANT	
• High-tech fibers • Special touch and appearance • Extremely high resistance to water pressure • Harmonious, high-quality fabric appearance • Officially tested UV protection for the skin	
STOBAG DESIGN	24
BRILLIANT 3D	25
BRILLIANT	26

PROTECT PLUS

PROTECT PLUS	28
RESISTANT	30
• High UV resistance • Phthalate-free coating • Smoothness	
RESISTANT BLOCKOUT	31
• Ideal for pergola applications • Aesthetic matte appearance • Ideal weight • Heat and weather protection	
WATER	34
• Extremely water-repellent • Dirt-resistant • Attractive surface structure	
REFLECT	36
• Reflective surface • Efficient thermal insulation • Cool atmosphere • Transparency and glare protection	
FIRE	37
• Flame resistant • Extremely water-repellent • Ideal for the gastronomy industry	

OPENING FACTOR

The opening factor defines the size of the fabric openings, e.g. OF 4 %.

ROLL WIDTH

Due to the specified roll width, various longitudinal or transverse welding seams can be produced, depending on the product and size.

FABRIC FOR TRANSPARENCY AND GLARE PROTECTION

TRANSPARENCY AND GLARE PROTECTION

SCREEN SOLTIS	38
SOLTIS 86	40
• Thermal insulation and controlled lighting conditions • Discreet view outside • Sun and glare protection • Weather resistant	
SOLTIS 88	41
• Ideal compromise between thermal insulation and visual comfort • Excellent outward visibility due to the uniform texture • Surface stability	
SOLTIS 92	42
• Fabric offering an ideal compromise between thermal insulation, outward visual contact, visual and glare protection	
SCREEN SPECIAL	45
SERGÉ 600	45
• Stability through glass fiber core • Two-tone design • Visibility and sun protection	
SERGÉ 100	48
• Fabric with a very low opening factor of 1 % • Reduced view during the day	
TWILIGHT	49
• 100 % PVC-free • Ideal thermal insulation • Perfect privacy and glare protection • Harmonious transparency	

FABRICS FOR DARKENING

DARKENING

SCREEN SOLTIS	38
SOLTIS B92	44
• Absolute darkness • Dimming or opaque • Effective thermal insulation • High mechanical strength • Flame resistant • Easy to clean

NOBLE SUN PROTECTION

CLASSIC UNI | CLASSIC STRIPES

Sun protection in its most beautiful design and from an extensive range of colors and patterns. Elegant, modern and to suit every taste. The fabrics are spun-dyed from high-quality acrylic fibers. This ensures that the colors are retained for a long time, even after intensive use. In addition, the fabric offers a high UV resistance due to a special coating and ensures excellent color fastness.

FABRICS

 All roll widths are 120 cm / 47.2".

A close-up photograph of a grey and white striped fabric, likely a bedsheet or pillowcase, showing the texture of the stripes. A red ruler is visible in the bottom right corner, and a white object, possibly a piece of paper or a small bag, is partially visible in the bottom left corner. The text is overlaid on the fabric.

**EXCLUSIVE WORLDS OF FABRIC SEE
AND FEEL THE UNIQUENESS**

DESIGN

The 3-D effect of the fabric offers a special visual and touchable experience. The CBA fibers (Clear Brilliant Acrylic) stands for excellent properties and is particularly smooth in contrast to conventional materials. The result is a fabric with an extremely dense surface that is particularly dirt-repellent and whose colors therefore shine brighter and longer. The fabric is also particularly water-repellent and offers very high UV protection.

To further underline the uniqueness, 10 different EXCLUSIVE designs have been developed, which are exclusively available from STOBAG and offer an aesthetic treat.

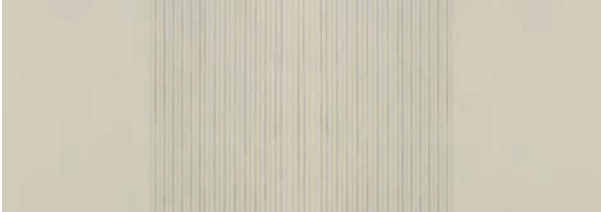

FABRICS

**UNOBSTRUCTED VIEW
AND GLARE PROTECTION IN ONE**

SCREEN SOLTIS | SCREEN SPECIAL

Visual protection from the outside and yet the surroundings can be seen from the inside. The texture of the different and high-quality materials offer optimum privacy and sun protection for vertical shading. Depending on requirements, different opening degrees of light and air permeability are possible, thus ensuring an optimum room climate.

 Due to the specified roll width, various longitudinal or transverse welding seams can be produced, depending on the product and size.

OUR SUPPLIERS

The high-quality materials and coating powders in this collection come exclusively from European suppliers and meet the highest quality standards.

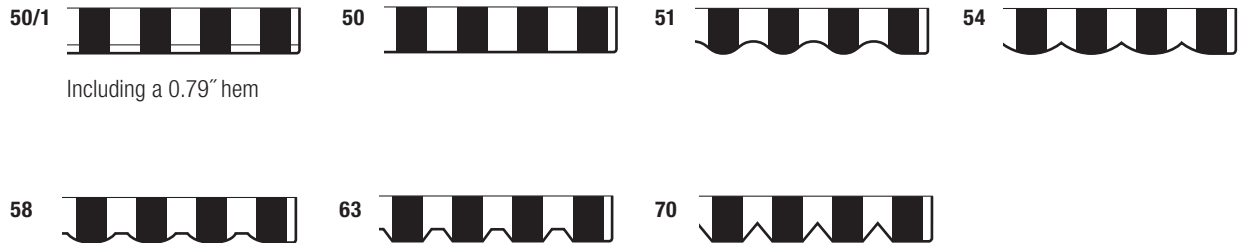

UV PROTECTION

STOBAG only uses sun protection fabrics that have been tested according to current UV test standards (UV 801, EN 13758-1, AS/NZS 4399:1996). The materials tested provide 90–100 % protection against UV radiation. All specifications are guidelines and refer to adults, children’s skin is much more sensitive.

						
SKIN TYPE		1	2	3	4	5
CHARACTERISTICS		Very fair skin, Light blonde or reddish hair, Freckles	Fair skin, blonde hair	Light tan skin, brown hair, no freckles	Tan skin, brown or black hair	Dark skin, black hair
Skin protection time		5–10 mins	10–20 mins	20–30 mins	~ 40 mins	~ 60 mins
Self-protection time under the awning cover						
	UV 90	150–300 mins	150–300 mins	600–900 mins	~ 1350 mins	~ 1800 mins
	UV 95	200–400 mins	400–800 mins	800–1200 mins	~ 1800 mins	~ 2400 mins
	UV 100	400–800 mins	800–1600 mins	1600–2400 mins	~ 3600 mins	~ 4800 mins

THE VALANCE SHAPES

The recommended valance height is 5.9"–7.9", depending on the type of awning. The valance cut-out is adapted to the corresponding repeat width. For technical reasons, a manufactured valance subsequently can show repeat deviations of up to 2.4". Important! Specify the valance number when ordering. Without specification, standard valance No. 50 is supplied.

THE EDGING TAPE FOR THE VALANCE

The valance has a hemmed edging tape to create a particularly beautiful appearance. Therefore it is important to always indicate the desired binding tape number when ordering fabrics. If no information is provided, the recommended edging tape as shown in this brochure will be used.

PERFECTLY COORDINATED

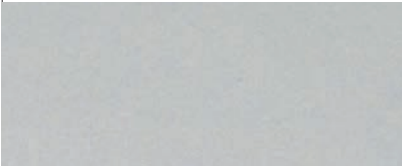

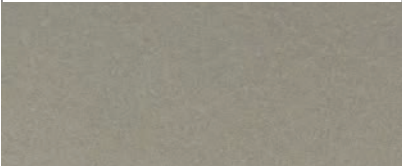

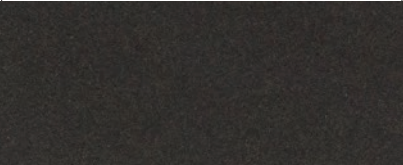

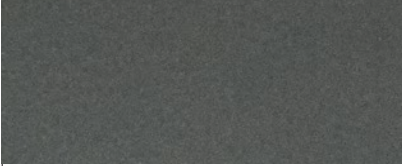

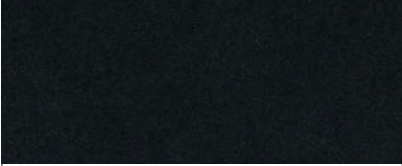

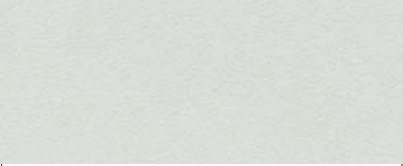

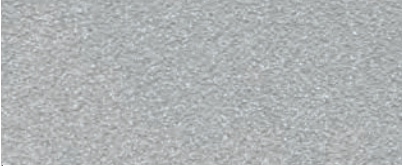

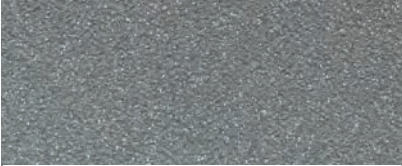

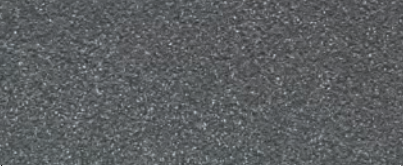

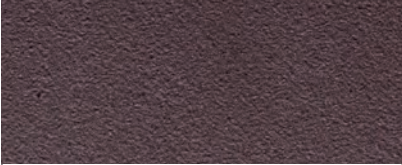

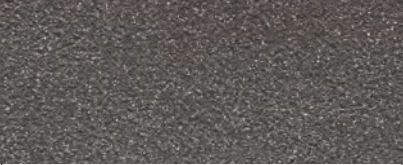

FRAME COLORS

Thanks to the wide range of colors and surfaces, the frame colors can be harmoniously matched to the fabric and its surroundings. With 14 CLASSIC- and 20 LIFESTYLE colors, a wide range is available that leaves nothing to be desired. All profiles and frame parts are also powder-coated and offer the construction effective weather protection.
