# Solutions for year-round comfort

Your home is where the heart is – your sanctuary, your refuge. With Phantom Screens, you can enhance your home comfort by creating versatile living spaces that blend the best of indoor and outdoor environments. Enjoy the tranquility and convenience of a well-protected area, making your home a place where you can breathe in fresh air and feel at peace.

Imagine being able to move seamlessly between indoor and outdoor spaces – without the intense glare of the sun or pesky bugs. Phantom Screens are perfect for any area of your home – patios, porches, kitchens, living rooms, home offices, and more. Custom-made and professionally installed, Phantom’s screens provide fresh air, shade from the sun, climate control, protection from insects, and a bit of privacy.

- Retracts out of sight
- Keeps the bugs out
- Blends into your home décor
- Maintains your view to the outdoors
- Allows fresh air ventilation
- Provides climate control
- Expands your living space
- Protects against UV rays

# OUTDOOR SPACES

Imagine effortlessly transitioning between indoor and outdoor spaces without the intense glare of the sun or pesky bugs. With Phantom Screens, you can. Get ready to impress. Phantom's retractable motorized screens expand your living space, offering all the perks of the outdoors with the comfort of the indoors.

Motorized retractable screens appear at the touch of a button and disappear when you don't need them. Ideal for indoor and outdoor living spaces, these custom-made and professionally installed screens provide fresh air without the bugs, shade from the sun, climate control, or a bit of privacy —

Welcome to your  
GREAT  
OUTDOORS

# Phantom Motorized Screens

**Motorized retractable  
screens for outdoor spaces**

## **FEATURES & BENEFITS**

- Motorized operated
- Retracts vertically
- Keeps the bugs out
- Allows fresh air ventilation
- Expands your living space
- Ensures a seamless transition with no threshold needs
- Various mounting options
- Maintains your view of the outdoors
- Lowers air conditioning costs
- Provides climate control
- Optional sun and wind sensors
- In-wall or hand-held remote controls
- Various mesh, fabric and vinyl options
- Wood grain and custom color options

# Applications

Phantom's motorized screens are custom-made and professionally installed to fit a wide variety of outdoor spaces.

**COVERED PATIOS & PORCHES**

**COVERED DECKS & BALCONIES**

## ADDITIONAL APPLICATIONS

- Large picture windows
- Verandas & lanais
- Outdoor kitchens
- Pergolas & cabanas
- Oversized door systems

**FOLDING & SLIDING GLASS WALLS**

**POOL ENCLOSURES**

## SEE ADDITIONAL PRODUCTS FOR OUTDOOR SPACES

For high-traffic areas that require timely in and out access, see our [Phantom Oversized Door Screens](#) on page 22.

# Customization

---

## COLOR OPTIONS

Select from one of our standard colors, wood grain options, or custom color matching. See page 40 for color swatches.

---

## MESH & FABRIC OPTIONS

See page 42 for mesh and fabric details. All mesh and fabric options provide solutions for:

**AIRFLOW**  
Fresh air ventilation

**SOLAR**  
Reduces up to 99% of UV rays

**INSECT**  
Eliminate unwanted bugs

**CLIMATE**  
Helps control temperature

**PRIVACY**  
Up to full block

---

## LUXURY VINYL OPTIONS

Luxury vinyl helps regulate the temperature in your outdoor living space while maintaining a sleek, modern look. Each vinyl 'wall' includes a clear vinyl panel framed by your choice of five perimeter color options, allowing you to customize the aesthetic to suit your style. See page 43 for vinyl color options.

---

## INSTALLATION OPTIONS

- Recessed mount
- Surface mount
- Dual roller application
- Cable guide system

# Customization

## ARCHITECTURAL INTEGRATION

Phantom's motorized screens are tailored to each project, seamlessly blending with your décor to preserve design integrity. These retractable screens can be recessed or mounted on existing structures and fit all architectural styles, including wood, brick, stucco, natural stone, and concrete.

RECESSED IN ROMAN ARCHWAYS

RECESSED IN COLUMNS

NATURAL STONE AND WOOD

STUCCO, BRICK AND CONCRETE

## DUAL ROLLER APPLICATION

This feature allows you to have more than one motorized screen type in a single pocket—providing any two combinations of insect protection, solar shading, climate control, or privacy. Pair clear vinyl units with insect or solar mesh using Phantom's dual roller system for optimal comfort.

# Customization

---

## CABLE GUIDE SYSTEM

We install most of our motorized screens with a surface-mounted track system or recessed into your structure. But if your project is flanked by open corners or decorative columns, or you want an exterior-mounted solar shade on a large picture window, we'll install your screen using a self-tensioning cable-guide system, eliminating the need for posts or tracks.

PERGOLAS

LARGE PICTURE WINDOWS

---

## MOUNTING

With Phantom's motorized screens with cable guide you can choose between a low-profile wall mount and a floor mount to best fit your needs and match your style.

WALL MOUNT

FLOOR MOUNT

# Controls and Automation

Phantom Screens has partnered with Somfy® to provide a wide range of remote controls and sensors for Phantom's motorized screens.

Some of Phantom's motorized screens come with Somfy's Maestria™ 50 RTS motor. This offers smart functions such as obstacle detection to help protect carrier products and prevent fabric damage. In addition, Phantom's motorized screens can be integrated into most home automation systems, including Lutron®, Crestron®, and smartphone devices.

---

## HAND-HELD REMOTES

Click a button, and watch your screens roll down. Or up. Then back down again. These hand-held remotes are available in single or multiple-channel versions, meaning each channel can operate one screen or a group of screens simultaneously.

---

## WALL SWITCHES

Don't need another remote? A wall switch is always where you left it. They're completely wireless, battery-powered, and available in white. You can install them in-wall or surface mount; there's even an outdoor-rated option for added flexibility.

---

## RAIN, SUN AND WIND SENSORS

Automatically open or close your motorized screen to adapt to the weather for optimal comfort & convenience. Rain sensor can help keep you and your outdoor space dry when it rains. Sun sensor can help protect furniture from harmful UV rays or provide comforting shade from the sun's heat. Wind sensor can help protect your screens from a damaging wind storm.

---

## TAHOMA® SWITCH

Control your motorized screen automatically via smartphone & tablet — from anywhere.

# Sizing

Phantom's motorized screens are custom-made and professionally installed for single openings as large as 40 feet wide by 16 feet tall. Maximum height and width are detailed below.

## MOTORIZED SCREEN

	WIDTH	HEIGHT
SINGLE UNIT (with track)	Up to 300" 300" to 480"	192" 132"
SINGLE UNIT (with cable)	Up to 300" Up to 108"	132" 240"
SINGLE UNIT (with vinyl)	Up to 300"	168"

*Note: Size limitations exist based on width and height ratio. Your Phantom Screens representative will confirm based on dimensions.*

Standard housing or recessed cavity protects screen when retracted

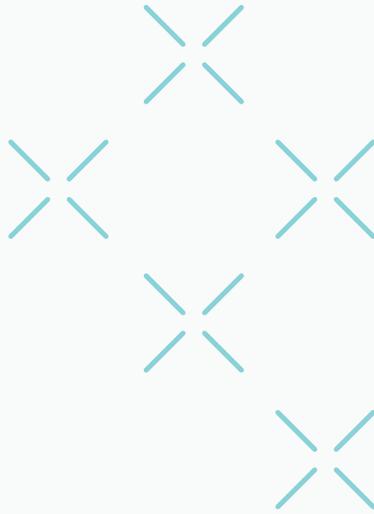

Mesh and fabric options to seal out insects, block sun, enhance privacy and control climate

Seamless transition with no threshold needs

PHANTOM®

# DOORS

There's nothing like leaving your doors open wide to enjoy the breeze, especially at the end of a hot summer day. Phantom's retractable door screens are insect screens that disappear out of sight into a discreet housing, giving you fresh air without the bugs – and won't spoil the look of your home. By installing screens on both your front and back doors, you can create a refreshing cross-breeze that reduces the need for air conditioning, making your home more energy-efficient. They come in various colors, sizes, and mesh types, perfectly matching your décor —

Bring in the  
FRESH AIR

# Phantom Door Screens

**Retractable screens  
for all door types**

## **FEATURES & BENEFITS**

- Manually operated
- Retracts horizontally
- Keeps the bugs out
- Easy in-and-out access
- Protection from the sun and UV rays
- Glides smoothly along tracks
- Easy operation with secure closure
- Thumb latch or magnet handle closure system
- Various mesh options
- Floating or captured edge options
- Wood grain and custom color options

# Applications

Phantom's door screens are custom-made, professionally installed, and designed to fit a variety of doorways.

**SINGLE OUT-SWING/IN-SWING DOORS**

**DOUBLE FRENCH DOORS**

**SLIDING DOORS**

**OVERHEIGHT DOORS**

**SEE ADDITIONAL PRODUCTS FOR DOORS**

For openings larger than 8' wide, see our [Phantom Oversized Door Screens](#) on page 22.

# Customization

---

## COLOR OPTIONS

Select from one of our standard colors, wood grain options, or custom color matching. See page 40 for color swatches.

---

## MESH & FABRIC OPTIONS

Phantom's retractable door screens come with insect mesh. Select solar meshes are available upon request. See page 42 for mesh and fabric details. All mesh and fabric options provide solutions for:

**AIRFLOW**  
Fresh air ventilation

**SOLAR**  
Reduces up to 95% of UV rays

**INSECT**  
Eliminate unwanted bugs

---

## EDGE OPTIONS: STANDARD FLOATING EDGE

Our retractable door screens with floating edge mesh create a bright, breezy space that blurs the lines between indoors and out while letting your home's design shine. The mesh floats along the top and bottom track, allowing for a little extra give.

### EFFORTLESS OPERATION

Designed for everyday ease, the floating edge mesh glides smoothly, perfect for frequent use and quick access to fresh air.

### SEAMLESS DESIGN

The floating edge offers a clean, modern look that blends beautifully with any doorway or architectural style.

### FRESH AIR FLOW, BUGS STAY OUT

Enjoy natural airflow and refreshing breeze while keeping insects outside where they belong.

# Customization

---

**EDGE OPTIONS:  
MESH LOCK  
CAPTURED EDGE**

Want to keep small pets in and debris out? We've got options! Our retractable door screens can now come with our mesh lock option – a captured edge solution that secures the mesh in the top and bottom tracks, preventing mesh from blowing out from the track – great for small pet owners!

**ADDED PROTECTION**

This new option prevents small pets from escaping and unwanted pests or critters from entering. Our zippered mesh technology keeps out debris and prevents the mesh from blowing out of the track.

**REINFORCED  
MESH CORNERS**

Reinforced mesh corners enhance the screen's overall strength and longevity, reducing maintenance and increasing life span.

**PEACE OF MIND**

The mesh lock option helps keep your small pets from escaping and other pests from entering, providing homeowners peace of mind without sacrificing access to that fresh air feeling.

# Customization

---

## HANDLE OPTIONS

There are a couple of options when choosing your handle type. A latching handle or magnet closure. Pick the one that makes sense for your home's traffic and flow.

### MAGNET HANDLE

Our simple, original handle uses a magnet closure system that allows for easy release and breakaway upon impact to protect the mesh.

### LATCHING HANDLE

Chosen by 90% of customers, an integrated quick-release latch in the handle makes it easy to use, quiet, and secure from unintended openings.

### LATCHING HANDLE WITH LATCH STOP

When you choose the latching handle, you have the option to add a lock to the handle for added peace of mind.

---

## INSTALLATION OPTIONS

- In-jamb mount
- Surface mount

# Sizing

Phantom's door screens are custom-made and professionally installed for all door types. Maximum height and width are detailed in the charts below.

## DOOR SCREEN

	WIDTH	HEIGHT
SINGLE DOOR SCREEN (one screen unit)	Max 48" Max 36"	Up to 100" 100 1/16" to 120"

## DOOR SCREEN WITH MESH LOCK

	WIDTH	HEIGHT
SINGLE DOOR SCREEN (one screen unit)	Max 48"	Up to 100"
DOUBLE DOOR SCREEN (two screen units)	Max 96"	Up to 100"

Need a bigger screen? For openings larger than 8' wide, see our **Phantom Oversized Door Screens** on page 22.

Mesh glides across the parallel top and bottom tracks

Sturdy slidebar guides the screen across

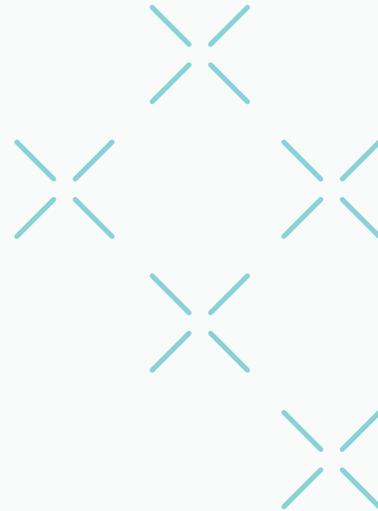

Easy to use handle types: thumb latch or magnet handle

Screen retracts into low-profile housing when not in use

# MULTI-PANEL DOOR SYSTEMS

Big spaces mean big solutions. There's nothing like enjoying the breeze without letting the bugs in, even when your door takes up your whole wall. Our retractable oversized door screens are the perfect solution. The larger measurements ensure a perfect fit with your oversized door opening – what's best; they disappear out of sight when not in use, never compromising your views or your home —

*Bigger and better*  
THAN EVER

# Phantom Oversized Door Screens

# WINDOWS

The trouble with traditional fixed window screens is that they're always there – compromising your view, making window cleaning difficult, and detracting from the aesthetics of your home. With Phantom's retractable window screens, you can enjoy insect-free ventilation and your view. They're available for all types and sizes of windows – even custom wood windows – and can be used for insect protection or solar shading. So when your home is basking in the sunshine, you can open your windows and welcome the breeze —

VIEWS  
*without limits*

Then, the casing and slidebar can be stained to match any wood grain finish, so you can match your existing trim or frame.

---

## FOOTNOTES

1. Phantom uses Powder Coated AAMA 2604 paint spec finish.

*This coating is an excellent standard for high-performance organic coatings applied on architectural aluminum components. These coatings offer enhanced resistance to weathering, chalking, fading, and gloss loss in high-traffic areas experiencing moderate environmental conditions. Please note that the appearance of the colors illustrated will differ from the actual coated samples or finished articles.*

2. Only available as standard color in Oversized Door Screens

3. Not available as standard color in Window Screens

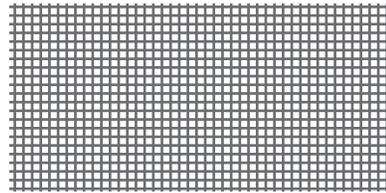

4. Not available as standard color in Motorized or Window Screens

*Please note that the appearance of the colors illustrated will differ from the actual coated samples or installed product. Talk to your local expert to see true color swatches.*

# Mesh & Fabric Options

Your screen's mesh gives you a surprising amount of control over what comes in and out of your space. Phantom offers a wide range of mesh types and colors, allowing you to control air, light, heat, and bugs. Choose a tighter or looser weave for your ideal needs.

Phantom provides mesh and fabric options for the following:

## INSECT

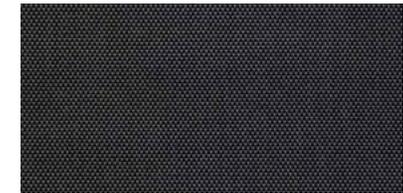

Whether it's horseflies or no-see-ums, our insect meshes come in a variety of weaves to keep out whatever's bugging you. It's also the most open type of mesh, so it provides more ventilation and visibility while reducing up to 55% of UV rays.

## SOLAR

A tighter mesh provides shade that reduces the sun's glare and heat in your space.

All of our meshes block UV rays to some extent, but solar meshes can block out up to 80% of UV rays, while still allowing airflow. This mesh is a great choice for protecting your textiles and furniture from sun damage.

## PRIVACY

Keep harsh sun and looky-loos at bay with a finely-woven privacy mesh.

These screens can block up to 100% of UV rays, and are available in multiple colors and fabrics. They're Greenguard-, lead-free-, and Microban-certified.

### AIRFLOW

Fresh air ventilation

### INSECT

Eliminate unwanted bugs

### SOLAR

Reduces up to 99% of UV rays

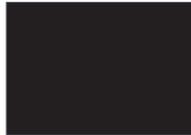

### PRIVACY

Up to full block

# Luxury Vinyl Options

Phantom's motorized screens come with the option of luxury clear vinyl, creating stylish 'walls' that can help regulate the temperature in your outdoor living space. Your vinyl screens will come with a clear vinyl panel and one of five perimeter color options you can choose from, as shown below.

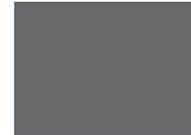

BLACK

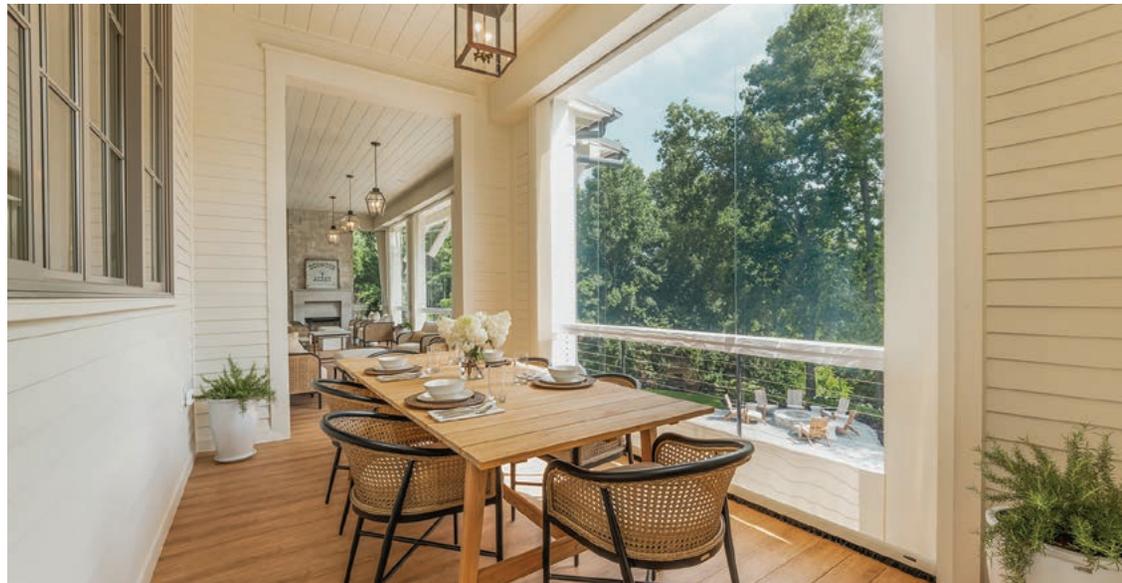

WHITE

BROWN

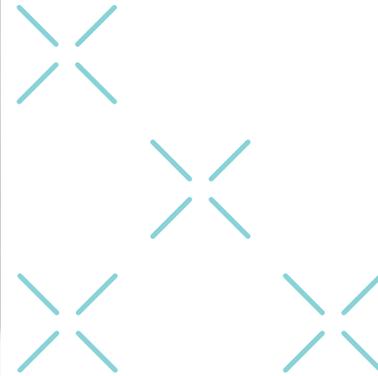

CONCRETE

**CLIMATE**  
Helps control  
temperature

*Luxury vinyl flame resistant rating: CSFM Reg. Title 19, NFPA 701, ASTM E 84 Class A.*

*Please note that the appearance of the colors illustrated will differ from the actual coated samples or installed product. Talk to your local expert to see true color samples.*

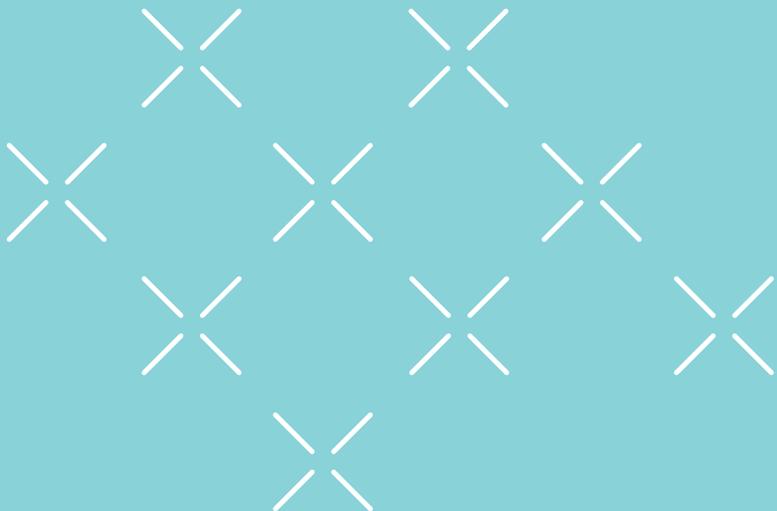

More than just fresh air – our screens bring shade, privacy, and comfort while expanding the way you enjoy your home. From bug protection to energy savings, they're designed to fit your lifestyle beautifully. —
